Individual Contributor License Agreement

Branes.AI Inc.

This Individual Contributor License Agreement (the "Agreement") is between Branes.AI Inc., 53 State Street, Suite 500, Boston, MA 02109 ("Branes.AI"), and the individual who accepts it ("You"). It sets the terms on which You submit Contributions to Branes.AI projects. Please read it carefully. You accept it, for all of Your present and future Contributions, either by signing the signature block below or by posting the acceptance statement in Section 10 as a comment on a Branes.AI pull request.

1. Definitions

1. "Contribution" means any original work of authorship, including source code, object code, hardware description language (RTL), netlists, schematics, compiler passes, models, benchmarks, test cases, documentation and any modification of an existing Work, that You Submit to Branes.AI for inclusion in a Work.
2. "Submit" means any form of electronic, verbal or written communication sent to Branes.AI or its representatives, including pull requests, merge requests, patches, issue trackers, mailing lists, chat channels and design reviews, except communication that You conspicuously mark in writing as "Not a Contribution".
3. "Work" means any software, hardware design, documentation or other material owned or managed by Branes.AI, including the KPU, the Domain Flow Architecture, the SURE compiler, the Stratos runtime, simulators and benchmarking environments, and their successors.

2. Copyright license. You grant Branes.AI, and recipients of software or hardware distributed by Branes.AI, a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, sublicense and distribute Your Contributions and derivative works of them.

3. Right to relicense and commercialize. Without limiting Section 2, Branes.AI may license, sell and otherwise commercialize Your Contributions, alone or within any Work, under any terms it chooses, including proprietary, commercial, closed-source, dual-license and open-source terms. Branes.AI may change the license of any Work at any time. You acknowledge that You receive no royalty, revenue share, equity or other payment for any such use.

4. Patent license. You grant Branes.AI, and recipients of software or hardware distributed by Branes.AI, a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Work, where the license applies only to patent claims licensable by You that are necessarily infringed by Your Contribution alone or by the combination of Your Contribution with the Work to which it was Submitted.

5. Your representations. You represent that:

1. You are legally entitled to grant the licenses above.
2. If Your employer, school or any other party has rights to intellectual property You create, You have received written permission to make Contributions on its behalf, or that party has waived its rights in Your Contributions, or it has signed a Corporate Contributor License Agreement with Branes.AI.
3. Each Contribution is Your original creation, and You will identify in the Submission any part that is not, together with its source and license.
4. Your Contributions do not include code or designs licensed under terms that would require Branes.AI to disclose its own source code or designs, such as the GNU GPL, LGPL or AGPL, unless Branes.AI has agreed to this in writing in advance.

5. Your Contributions contain no confidential information of any third party and no technical data controlled under the U.S. International Traffic in Arms Regulations or the Export Administration Regulations, unless You have notified Branes.AI in writing before Submission.

6. No obligation and no attribution. Branes.AI is not required to use, merge or distribute any Contribution. Branes.AI is not required to credit You, but may do so. To the extent permitted by law, You waive, and agree not to assert, any moral rights in Your Contributions against Branes.AI or its licensees.

7. No support or warranty. You are not expected to provide support for Your Contributions unless You choose to. Unless required by law or agreed in writing, You provide Your Contributions on an "as is" basis, without warranties or conditions of any kind.

8. Notice of changes. You agree to notify Branes.AI promptly if You become aware of any fact or circumstance that would make any representation in this Agreement inaccurate.

9. General. This Agreement is governed by the laws of the Commonwealth of Massachusetts, without regard to conflict-of-law rules. Branes.AI may assign this Agreement, and the rights granted under it, to any affiliate or to any successor to all or part of its business, including through merger or acquisition, without Your consent. The licenses granted in Sections 2 to 4 survive any termination of Your relationship with Branes.AI. This Agreement is the entire agreement on its subject and may be amended only in writing signed by both parties.

10. Electronic acceptance. You may accept this Agreement by posting the following comment, exactly as written, on a pull request to any Branes.AI repository: "I have read the Branes.AI Individual Contributor License Agreement and I hereby sign it." Your GitHub username, GitHub account ID, the pull request and the time of the comment are recorded as Your signature, with the same effect as a handwritten signature. One acceptance covers Your Contributions to every Branes.AI repository.
